## California Air Tools CAT-6310 Ultra Quiet Air Compressor Review

Finding the right portable air compressor is imperative if you want to have flawless operation. The **California Air Tools CAT-6310 Ultra Quiet Air Compressor** has been modeled for the best performance.

This product is ideal for use for a variety of inflation tasks and powering pneumatic tools such as [nail guns](#).

Unlike most compressors, it has low noise levels. It operates at an impressively quiet sound level and this does not compromise the quality of its work. The one HP motor is powerful to

sustain the working capacity of this appliance.

This is one of the best air compressors of its class with features to enhance it beyond basic functionality. It is a portable appliance designed in a compact package for easier maneuverability.

Since purchasing an air compressor is making an investment, the *California CAT-6310 air compressor* is constructed solidly in order to serve and last for a long time.

The steel tank coupled with the oil-free pump makes it one of the most convenient appliances to have even in harsh conditions. **Air compressors** are often exposed to construction areas where everything has potential for denting. This design tries to ensure that it remains a very resilient product. [More details...](#)

### Noise Reduction

This is one of the best features that make this air compressor ideal for use especially for home renovations. It operates at only 60 decibels which is very low and is ranged at the same noise level as a normal conversation or even lower.

A lot of people fail to understand the significance of a quiet motor. Ears are very delicate and any sound level above 90 decibels is hazardous to the health of the ears and general wellbeing of the body. In addition, noise pollution is one of the most disturbing occurrences especially in residential locations. (Compare with [PORTER-CABLE CMB15](#))

### Power Output

The *California Air Tools CAT-6310 Ultra Quiet Air Compressor* has a one HP motor which is very

Compressor

sufficient for carrying out the operations for which it has been designed. This motor operates at 1680 RPM which is a very good level that also plays a key role in the noise reduction.

The tank has a capacity of 6.3 gallons which means that it has a longer period of operation time of quality power. This is enhanced by the maximum pressure of 120 PSI as well as the air flow capacity which is 3.8 CFM.

This air compressor is powered by electricity and has an amperage capacity of 8 amps. With this features, this appliance is capable of most home constructions and renovation work as well as handy for tire and crafts inflation. [More details...](#)

### Portability

Portability is important when one has to move about with the compressor especially for small-scale commercial handymen. At only 49 pounds, it is easy to carry from one location to another.

The **California CAT-6310** has been built in the model commonly termed as hotdog. The shape makes it easy to maneuver around work spaces and enhances the compactness. It comes with a single handle to aid in toting and the 6.3 gallon tank comes with very handy wheels.

### Oil-free Pump Design

The Oil-free pump is several steps ahead of the oil lubrication models. The California Air Tools CAT-6310 Ultra Quiet Air Compressor requires little maintenance because it requires no oil changing; an operating that is messy and very expensive.

Besides this, this pump is great to have in every geographical location. Oil lube air compressors become a bit of a hustle to start and operate in colder locations. It is also more durable compared to its counterpart.

### The Pros of the California CAT-6310

- It has increased power capability due to the 6.3 gallon tank and the maximum pressure of 120 PSI.
- The oil-free pump is an excellent design to improve the convenience of low maintenance and increase the compressor's life span.
- It is a durable item with a solidly built tank body.
- The compressor is portable due to the light weight and the wheels under the tank.
- The reduced noise levels make it very compatible with most environments.
- It comes with a one year limited warranty from a credible company.
